1. It is anticipated that new members will be active participants in all facets of club life. Please note any specific skills or interests that feel may be beneficial to the OTYC:

I would like to keep the OTYC going for the next generation. The membership monies collected help maintain and sustain the club. The original intent was for the club to be a sailing club and I would like to help make that happen. I am interested in the work to open/close the facilities including planting flowers, cleaning /organizing. I am interested in getting GAME day bigger. I would love to get Euchre games going and see if others will get chess and such going. It would be great for those rainy days.

2. Do you have any historic or familial connection in and around the Omena area? If so, please explain:

My family starting with my grandmother, aunt and mother all were contributing/founding members of the OTYC. Basler/Newland. I learned how to sail, play tennis and be a part of theatrical plays. I hope that by having the Club active, these activities could be offered to our youth.

Applicant's name Ann Newland

3. How much time do you anticipate spending in the Omena area each summer from Memorial Day to Labor Day, when most of the OTYC activities take place?

I anticipate I will be living in the area from May 15- October 15th

4. As the Club will benefit from your active involvement, what benefits do you hope to derive from membership?

I have been away from the Club a long time. I hardly know anyone now. I would like to get to know more of the new members and form friendships. It will also give me great pleasure to know that I will be part of sustaining the club for the future.

5. Please share any other information about you and your family that would be helpful in getting to know you

Our family has been here for 5 generations. I feel the mix of long-time members and new members help keep stories going and create new ones. I have no children but would want this generation of kids and future generation of kids to know the comfort and safety that comes from a large group of folks who all want them to have the BEST summer memories. I would want these kids to make lifelong friendships like I have and enjoy what that means when you grow old!
